

# Get User's guide

**FCC ID: 2AL8WBWG01**

**IC ISED: 22763-BWG01 IC HVIN: BWG01**

## Features

Play music wirelessly from any Bluetooth enabled device.  
Control your music directly from your GET.  
Answer phone calls thanks to the integrated microphone.

## Setting up

- Connect your headphones to GET's 1/8" jack or connect GET to the "line in" input of an amplifier/amplified speakers. (this may require a 1/8" to RCA cable, not included)
- Power up GET by pressing its round button for 1 second, the LED indicator will blink blue, indicating it's ready to be paired.
- Go to your Bluetooth settings on your phone/device and select "Bluewave GET" from the search list. The LED indicator on GET will become solid blue once paired.

## Using GET

- The round button will play/pause your music, answer calls when your phone is ringing (press again to hang up) and turn the device off (4 seconds press)
- The triangular buttons will skip forward/back your songs and fast forward/rewind when held.

- The volume wheel on GET is completely independent from your device.

Although your Bluewave GET can only play music from one device at a time, it is capable of being paired to up to eight devices. Keep in mind that Bluetooth has a 30-foot range.

## **Reconnecting Your Device**

If you move out of range or turn off the Bluetooth feature on your phone/device, Bluewave GET will disconnect from your device. GET will reconnect automatically to most devices. If it's not the case, simply access the Bluetooth manager on your device and select "Bluewave GET" again.

## **Changing Connected Device**

If you want to switch from one device to another, follow these steps:

1. Access the Bluetooth Manager and disable the Bluetooth function of your phone/device.
2. Bluewave GET can now be connected to a different Bluetooth device.
3. Follow the directions in "Setting up" to connect a different device.

## **Recharging**

- Recharging GET is done via a Micro USB cable that comes with the package. Connect the cable to the USB port located on GET's bottom edge and to a suitable power source. Normal charging time is approximately one hour.
- GET's LED will show a red light while being recharged and a green light when fully charged.
- If the battery power falls below 10 percent, the LED will flash red every 4 seconds.

## **Resetting**

If you experience a malfunction or freeze and cannot power off GET, you can reset the device by inserting a paper clip or ball pen point in the reset hole located to the lower right side of the Micro-USB connector.

## Precautions

- Do not put heavy objects on the product.
- If the product gets wet from rain (water), beverage, liquid medicine, sweat or moisture, never turn it on. Wipe it with dry cloth, and get it checked at the nearest Bluewave service center. (Water-damaged devices may not be available for free repair regardless of warranty status). Avoid places with excessive moisture, dust, or smoke.
- Never disassemble, repair or alter the product.
- Avoid exposing the device to direct sunlight or extreme temperatures.
- Do not keep the product next to strongly magnetic objects like magnets, TVs, monitors and speakers.
- As chemicals or detergents change the surface of the product and removes the paint, never use them.
- Do not drop the product or give a strong shock to the product (places where there is strong vibration. etc.).

## Troubleshooting

The device won't turn on.

- Check whether the power adaptor is connected properly.
- Check whether the device is charged.
- Charge with 5V 2A output adapter.
- We recommend the use of the Micro USB cable that comes with the package.

No sound comes out

- Check whether the volume set at [0].
- Check whether the earphones are plugged in properly, and make sure dust isn't obstructing the port connection.
- Check the volume of the device to which it is connected.
- Make sure that the music file is not corrupted.
- Check whether Bluetooth pairing is properly made.
- Find out whether there is any device causing frequency interference nearby.
- Find the best signal receiving location by moving the device slowly.

Bluetooth connection is not made.

- Maintain the distance between the product with a Bluetooth device (maximum signal receiving distance is 10 meters)

## **FCC Statement**

*This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:*

*This device may not cause harmful interference, and this device must accept any interference received, including interference that may cause undesired operation.*

*This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference, the user is encouraged to try to correct the interference by consulting with a dealer or an experienced technician for technical assistance.*

## **FCC notification to users**

Any changes or modifications to the equipment not expressly approved by the party responsible for compliance could void user's authority to operate the equipment.

## **Industry Canada Statement**

This device complies with RSS-210 of Industry Canada.

Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

This Class B digital apparatus complies with Canadian ICES-003.

## **Avis d'industrie Canada**

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence.

L'exploitation est autorisée aux deux conditions suivantes: (1) l'appareil ne doit pas produire de brouillage, et (2). l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement

Cet appareil numérique de la classe B est conforme à la norme NMB-003 du Canada.

## Warranty

Électronique Bluewave Inc. ("Bluewave") warrants to the original purchaser of this Bluewave product that the product shall be free of defects in design, assembly, material, or workmanship.

Bluewave warrants the Bluewave product for **one year**.

Bluewave will repair or replace, at its option, any defective product free of charge (except for shipping charges for the product).

Bluewave reserves the right to discontinue any of its products without notice, and disclaims any limited warranty to repair or replace any such discontinued products. In the event that Bluewave is unable to repair or replace the product (for example, because it has been discontinued), Bluewave will offer either a refund or a credit toward the purchase of another product from [bluewaveaudio.ca](http://bluewaveaudio.ca) in an amount equal to the purchase price of the product as evidenced on the original purchase receipt as discounted by its natural use.

All above warranties are null and void if the Bluewave product is not provided to Bluewave for inspection upon Bluewave's request at the sole expense of the purchaser, or if Bluewave determines that the Bluewave product has been improperly installed, altered in any way or tampered with. The Bluewave Product Warranty does

not protect against acts of God such as flood, lightning, earthquake, war, vandalism, theft, normal-use wear and tear, erosion, depletion, obsolescence, abuse, damage due to low voltage disturbances (i.e. brownouts or sags), non- authorized program, or system equipment modification or alteration.
